

**Comments from the Adjudication Panel Members
of the Hong Kong Heritage Awards 2004**

1. All entries submitted for the Awards should be completed before the submission date.
2. A half-day visit to entries submitted for the Heritage Preservation and Conservation Category should be arranged for the adjudicators.
3. For the School Category, entries from primary and secondary schools should be assessed separately from those submitted by universities and tertiary institutions.
4. As the entries related to research on historic buildings could hardly be assessed with projects submitted by schools or community groups due to their diverse nature, it is suggested that “Research on Historic Buildings” should be considered as a category under the Heritage Education and Publicity Awards in the forthcoming Awards.
