II. Projects Completed

Item No	Work Project	Historical Background of The Concerned Building	Scope of Work	Progress
6.	Repairs to Cheung Shan Monastery, Ping Che, Sha Tau Kok (沙 頭角坪輋長山古寺)	 The Monastery was probably first built in 1789 as a joint effort of six villages in Ta Kwu Ling Area. The Buddha, Kwun Yum and Tei Chong Wong (a Bodhisattva) are all worshipped in the monastery. As recorded in a plaque inside the temple, the existing two-hall structure is believed to have been fully rebuilt in 1868. The monastery was once a resting place to provide services and free tea for wayfarers traveling between Shenzhen and Sha Tau Kok. The temple was declared a monument in 1998. 	 Drainage improvement works Repair to cracks on the flank walls Redecoration to external and internal walls Waterproofing works to the external walls 	Works completed in February 2007.
7.	Repairs to Yi Tai Study Hall, Kam Tin (錦田二 帝書院)	 According to local legends, Yi Tai Study Hall was built between 1821 to 1850 to accommodate the Man Cheong and the Kwan Tai. The building was built purely for use as a study hall and its architecture is therefore simple and functional. The study hall was declared a monument in 1992. Full restoration was completed in 1994. 	brickworkWaterproofing work and redecoration to the internal	Works completed in March 2007.

8.	Repairs to Kun Lung Wai, Lung Yeuk Tau (龍躍頭觀龍圍)	 The walled village, which dates back to 1744, is enclosed by green-brick walls. Four watchtowers were constructed at the four corners of the enclosing walls for defence of the village. A pair of chained-ring iron gates was installed at the front entrance. The moat, originally surrounded the walled village, has been filled up. The layout of the houses inside the village is in an orderly manner with a communal altar situated at the end of the main alley. The gatehouse of the walled village was declared a monument in 1988, whilst the enclosing walls and watchtowers were declared in 1993. 	 Dentist repair to external brickwork and repair to the bulging enclosing wall Replace deteriorated canton floor tiles in the entrance gate Repair spilt timber joists of the cockloft 	Works completed in March 2007.
9.	Repairs to Hung Shing Temple, Kau Sai Chau, Sai Kung (西貢滘西洲 洪聖古廟)	 According to local legends and the stone tablet at the temple, the building was probably built before 1899. Being a district temple of Kau Sai Chau, it has long been a place in which to pray for the safety of fishermen. Large-scale celebrations are held by the locals during the birthday of Hung Shing every year. The temple is a two-hall, three-bay structure with a dong-chung door in the front hall. Altars are placed in the main hall where Hung Shing, Choi Pak Shing Kwan and Shui Sin Yeuh are worshipped. Restoration to the temple was completed in 	 Dentist repair to deteriorated brickwork of internal and external surfaces Repair to incinerator Redecorate roof ridges Installation of exhaust fans 	Works completed in March 2007.
