

**Progress of Archaeological Projects conducted by AMO between September and October 2007**

<b>Item</b>	<b>Site</b>	<b>Project Duration</b>	<b>Development</b>	<b>Background</b>	<b>Project Director</b>	<b>Result</b>
1.	Che Ha, Sai Kung (西貢峯下)	Archaeological Survey in late Sept 2007 (a week)	Small House Development	The site was first discovered by the Second Territory-wide Survey in 1998. Subsequent investigations in 2000 and 2001 yielded artifacts of Neolithic period, song, Ming and Qing dynasties.	Field Archaeology Unit of AMO	No cultural remains were recovered from the small house site.
2.	Shek Kiu Tau, Sha Tau Kok (沙頭角石橋頭)	Archaeological Survey in Oct 2007 (a week)	Small House development	The site was first recorded by the Second Territory-wide Survey in 1998. Field investigation in 2000 discovered prehistoric cultural remains and ceramic sherds of Song and Ming dynasties.	Field Archaeology Unit of AMO	No cultural remains were recovered from the small house site.
3.	Ho Pui, Yuen Long (元朗河背)	Archaeological Survey in Oct 2007 (a week)	Small House Development	The site was first recorded by the archaeological survey of West Rail Environmental Impact Assessment in 1999. Hard geometric pottery sherds of Bronze Age were recovered by subsurface investigation.	Field Archaeology Unit of AMO	No cultural remains were recovered from the three small house sites.
