

**Progress of Archaeological Projects undertaken by AMO between May and August 2015**  
**(as at 31 August 2015)**

<b>Item</b>	<b>Project</b>	<b>Background</b>	<b>Progress/Result</b>
1.	Archaeological survey for small house developments at Lo So Shing, Lamma (南丫島蘆鬚城)	An archaeological survey to examine the archaeological potential of two small house sites which are located within the Lo So Shing Site of Archaeological Interest.	Fieldwork commenced in late June 2015 and was completed in late July 2015. Kiln furniture and ceramic sherds of Tang dynasty were discovered and retrieved from the test pits at one of the small house sites. No significant cultural remain was found from the test pits at the other small house site.
