Item No.	Project	Background	Progress/Result
1.	Archaeological survey for small house development at Lo So Shing on Lamma Island	An archaeological survey to examine the archaeological potential of a village house site located within the Lo So Shing Site of Archaeological Interest on Lamma Island.	Fieldwork was conducted from late July 2021 to early November 2021. A large amount of archaeological artefacts and <i>in-situ</i> features of pre-historic period were unearthed during the archeological work. Significant finds include stamped geometric pottery pots and well-polished stone rings. Post-excavation processing is underway.
